DISCOVER THE POWER OF THE

MUDMAN

WITH BORE LOGIC

KEEP DRILLERS DRILLING

The **Mudman Stand-Alone Crawler** is a compact drilling fluid recycling system designed to reduce waste, water, and polymer consumption while improving jobsite efficiency. Its cyclone, shaker, and conveyor efficiently separate solids from drilling fluids. With a crawler-mounted design, remote controls, and a 71 HP engine, the Mudman is easy to transport and operate in a variety of drilling environments.

BORE LOGIC

The Mudman Stand-Alone Crawler is a self-contained drilling fluid recycling system designed to improve efficiency, reduce waste, and keep drilling sites cleaner. Featuring a powerful 10-inch cyclone, specialized shaker, and integrated conveyor, the Mudman efficiently separates gravel, clay, sand, and other solids from drilling fluids. By recycling drilling fluid on site, contractors can reduce water and polymer consumption while improving overall jobsite efficiency.

DIESEL ENGINE

- **Model:** Kubota V2607-CR-T-E5
- **Emissions Rating:** EU Stage V (E5)
- **Power:** 71.1 hp

TANK CAPACITIES

- **Diesel Tank Volume:** 37.2 gal
- **Hydraulic Tank Volume:** 29.1 gal
- **Mud Tank Volume:** 330 gal

MUD RECYCLING SYSTEM

- **Feed Pump to Cyclone – Flow Rate:** 528 US gpm
- **Cyclone Size:** 10”
- **Conveyor Belt for Clay/Gravel:** Standard
- **Single Shale Shaker:** Standard
- **Remote (Radio) Control:** Standard
- **Centrifugal Mud Pump:** Option
- **Suction Pump:** Option
- **High Pressure Cleaner:** Option

With a compact crawler-mounted design and a weight of approximately 6,600 lbs., the Mudman is easy to transport alongside your drilling equipment. Radio remote controls provide simple, safe operation around the jobsite, while the 71 HP (53 kW) engine provides plenty of power for additional options such as a centrifugal pump or high-pressure washer. From tight urban projects to remote drilling locations, the Mudman provides North American drilling contractors with a versatile solution for managing drilling fluids, reducing waste, and keeping crews productive.

CARRIAGE

- **Undercarriage Type:** Crawler (tracked)

WEIGHT

- **Machine Weight** *(website)*: 7,937 lbs
- **Machine Weight** *(brochure)*: 6,614 lbs

TRANSPORT DIMENSIONS

- **Length:** 10.10 ft
- **Width:** 5.97 ft
- **Height:** 7.66 ft

WORKING DIMENSIONS

- **Length:** 10.10 ft
- **Width:** 8.35 ft
- **Height:** 12.48 ft

DIMENSIONS

- **Length:** 7.87 ft
- **Width:** 5.25 ft
- **Height:** 8.20 ft
